

Valley Center Fire Protection District

FIRE ENGINEER POSITION

The Valley Center Fire Protection District is recruiting and testing to establish a list of qualified candidates for the position of Fire Engineer.

The Valley Center Fire Protection District is 87 square miles with a population of approximately 20,000. The District is a rural suburban area located in North San Diego County California. The District contains heavy wildland urban interface areas with rugged terrain consisting of a main valley floor with hillsides and steep canyons. The fire department responds to 1,800 calls for service a year. The District is governed by a 5 member Board of Directors elected at large from the community.

Currently, Fire and Emergency Services are provided by six full time Captains, six full time Engineers and twenty-four (24) part-time Firefighters. Paramedic Services are provided through a Public-Private Partnership with Mercy Ambulance. Administrative and Prevention Services are provided by a Fire Marshal, Deputy Fire Marshal, Accountant and an Administrative Assistant employed by the District.

The Valley Center Fire Protection District operates from two Fire Stations strategically located with two Type 1 ALS Engines, 1 ALS Ambulance, 1 ALS Type 6, Rescue Squad and 1 Duty Chief.

When employed, the Fire Engineer, at the direction of a Fire Captain, will perform all of the duties of a Fire Engineer, Firefighter, EMT or Paramedic. The Fire Engineer will operate vehicles, apparatus and equipment in a safe and professional manner, provide program and project management, participate in life safety inspections, deliver public education, and provide instruction and mentorship to Firefighters, EMTs or Paramedics.
